# Restaurant
Serve At The Table

A restaurant is a direct reflection of it's owner. Features like quick-serve, table layouts, server reports, cloud interface with a back-office accessed anywhere at any time, colorful displays unique to it's business, EMV/ PCI DSS certified Semi-Integrated Credit Card systems are all important.

DejaPayPro has it!

Dejavoo takes merchant satisfaction seriously. With experience spanning multiple industries, DejaPayPro has all of the features a restaurant needs, with no fragmented support. One Call Resolutions with Tier 1, and 2 level support on hand anytime day or night.

Dejavoo is a one-stop-shop with representatives on hand to handle the POS, the Credit Card services, training, repair/replacements, and any questions an owner may have so that he /she can focus on their customers.
